

LUNATICS AT FLATBUSH.

HORSEWHIPPED BY HIS WIFE.
Emerich Ran and the Crowd Thought He Was a Thief.

Kings County Buildings Are Badly Overcrowded.

Patients Sleeping Three in a Bed and on the Floor.

Many complaints have been made of the over-crowded condition of the county buildings at Flatbush. In every annual report of the superintendents of the various institutions attention has been called to this fact.

A visit to the asylum and hospital shows that the trouble has not been exaggerated. The rooms are filled to overflowing with patients, and the buildings are nearly completed, and are expected to be ready for occupancy by Nov. 1.

The buildings will relieve the buildings at Flatbush, but it is apparent that more buildings are needed.

Between the hospital and insane asylum is a building known as the nursery. At present this building is filled with lunatics. When the State takes over the buildings the inmates of the nursery will be transferred. This building will then be devoted to hospital uses, and the asylum will be in a better condition of service.

Sup. Sylvester, of the Insane Asylum, frequently refuses to receive more patients, and has no room left to accommodate them in the rooms at the asylum. To-night he has written to his wife, Mrs. Hammon, asking her to come to him. He ran for a number of blocks, and was soon met by his wife, who thought he was trying to escape.

Opposite Zion's Bakery, a policeman received a telegram from Philadelphia, telling him that his wife had run away.

He has been married to this woman five years, said Mrs. Hammon, and up to date he has been very attentive to other women. I have reason to believe that she is a woman of bad character.

To-night he followed him, caught him with this woman and then gave him fire.

No arrests were made, and the wife went home with her husband.

SEÑOR MARENO A SUICIDE.

He Was in a Strange Land and Out of Employment.

The body of Señor Mareno, whose passport showed him to be a native of San Domingo and an engineer by profession, was taken to the Morgue from his room, 3 Willow Street, Brooklyn, this morning.

Mareno had been out of employment for some time, and was in delicate health. He was in poor condition when he entered the asylum.

Some tickets issued to him indicated his poverty, and dependency prompted him to commit suicide. He severed the veins on his left forearm and left with a razor. His door was open, and Mrs. Hammon, his bed-mate, later found him.

It is said that as soon as the St. Johnland buildings are completed, Mareno will return to San Domingo.

The new buildings will be constructed on the same general plan as the present buildings, except that improvements will be made in the interior.

Scrofula

Permeates humanity. It is thoroughly infused into the blood. Scarcey a man is wholly free from it, in one form or another. It clings tenaciously and will not be cured until the last vestige of its poison is driven from the blood by the power of a good blood purifier like Hood's Sarsaparilla.

Many of the cures of Scrofula accomplished by Hood's Sarsaparilla have been nothing less than wonderful. Cases which were considered absolutely hopeless have been cured by it, and the people to-day live and enjoy good health.

If you suffer from any form of Scrofula or any other affection caused by impure blood, you should certainly take Hood's Sarsaparilla.

Hood's Sarsaparilla Cures

HOOD'S PILULES are prompt and efficient, yet safe in action. Sold by all druggists, 25c.

New Jersey Notes.

Frank Deterie, a Jersey City barber, who was recently arrested for the murder of his son, is now seeking diversions. He claims his bride is being held without his full permission, and he didn't know what was done when he consented to get married.

An old tank steamer, which will carry 2,000 men, is to be built for the New York branch of the Standard Oil Company to load. She is the largest tank afloat and cost \$100,000.
